

COMMISSIONERS GET WIDE POWERS

City Council Give to Them the Complete Administrative Control of City of Edmonton.

WILL ANNIHILATE TAX IN CITY OF EDMONTON.

The obnoxious poll tax so much protested against during the past few years will be abolished in the city of Edmonton. The question has been under consideration for some time past and at night Ald. McInnis, one of the commissioners, said it had been decided to allow it quietly to die a natural death.

The city council at their regular weekly meeting last night adopted the recommendations of the commissioners with reference to the extension of their duties to take in all the administrative portion of the business.

The report was adopted unanimously after some discussion. Ald. McInnis said he had destroyed a string upon the appointment of the heads of departments by making it clear that all such appointments should be confirmed by the council. Eventually they voted their opinion on the report and the report was adopted in toto.

Ald. Garrick expressed himself in complete accord with the report. The city was making changes in its administration. The commissioners should be given a free hand in administration. This was the opinion of the commissioners lately in connection with street railway extensions which he had suggested. The public would realize that the commissioners were acting with the best interests of the city in mind.

Ald. Hyndman agreed with the report in general but thought that the slowness of the work of the commissioners should be confirmed in the council.

Ald. Lundy held the same view in regard to the confirmation of the heads of departments.

Commissioner Bouillon's Protest.

The commissioners made a strong protest against the change suggested by Ald. Hyndman and Lundy, to the effect that the city's utilities the power of appointing commissioners should rest entirely with one commission. The way and the only way for prompt efficient control. This would raise the efficiency of the service. The city council had full control if they did not accept what the commissioners could say.

The mayor said the difficulty with Ald. Hyndman was that the commissioners would appoint the heads and they would be responsible to the commissioners.

The Commissioners' Duties.

After further discussion the commissioners decided the following duties of the commissioners:

To advise the council on all matters of the city with power to appoint and remove the heads of the departments.

To act as secretary-treasurer, the assessors, the receiver general, the auditor of accounts, the treasurer of the post office, which was to be opened shortly.

TUBERCULOSIS CONFERENCE

Open in Montreal. Dr. LaFerty.

Montreal, June 7.—At the opening session of the Canadian Association for the Prevention of Tuberculosis at the Hotel Royal York, Dr. J. G. A. LaFerty, president, addressed the association.

The commissioners shall be responsible for the promotion of the faithful performance of such duty.

In addition to the powers vested in the commissioners by the Act, the commissioners shall have power to make all in their discretion, necessary to carry out the objects of their branches.

(—)When called, as provided for in section 16, the commissioners shall be entitled to a complete report of the operations of the departments under their control and there is hereby vested in the commissioners the authority to make any representations to the council or the legislature concerning the operations of the departments and the said commissioners shall have power to make such representations, and it shall be their duty to report such contracts to be faithfully carried out.

(—)The commissioners shall receive, hear and deal with all petitions and applications from the public in like business, excepting only such matters as relate to legislation requiring action of the council, and all other matters shall either be directed or referred to the council for action.

(—)The commissioners shall make a complete report of the operations of the departments under their control to the council at their future operations, at the ten days of each fiscal year.

The commissioners shall be public records and information concerning any business transaction or other matter at all times, a formal report of such transaction or other matter to be made by the commissioners every six months periodically the request of the council.

A Farewell to Earl Grey.

Charles Hopewell, mayor of St. John's, wrote to the different mayors of Canada met in Quebec and present an address. His Excellency the Governor General, Sir Edward M. Borden, received the letter from Canada. The letter was laid on the table till it was ascertained whether it would be appointed for another term. Ald. McInnis, for the finance committee, said the amount of his compensation to be \$44,683.88. The report was adopted.

The commissioners reported that the necessary amount to pay the face

FEDERAL GOVERNMENT SAVES FORT FRANCES

Laurier Government Refuse Power Company Right to Export
Canadian Government Declares—Whitney Government Agreed to Allow Company to Export the Whole Amount.

Ottawa, June 7.—An order-in-council was passed yesterday afternoon granting the Minnesota and Ontario Power company the right to export 3,500 horse power, or half of the total amount now developed on the Canadian side of the river at Fort Frances.

The order was issued by the prime minister.

Allowing for sidewalks 14 feet wide and omitting a strip of pavement occupied by the car tracks 20 feet, there would be 140 feet of roadway, and the railway 20 feet wide, which the commissioners say is more than ample for accommodation of all traffic on this avenue for some time to come.

The proposal to export power with the present equipment and with one gravel ballast with a low wooden guard rail along the edge of the paved roadway to guide the traffic and to protect the edge of the pavement. At all the street intersections the railway strip will be planked.

Paving Was Held Up.
Alderman Garlick called attention to the fact that the Ministry of the Interior had been unable to start paving for weeks past.

It was agreed that this was the case and if it were so the commissioners should have the license to export as is deemed wise in the interest of the Canadian.

Fort Frances Objects.
Streets and objects from the town of Fort Frances all the way to the littlest company, that the power was to be exported to the north of the Canadian side of the river, which the commissioners say is more than ample for accommodation of all traffic on this avenue for some time to come.

The proposal to export power with the present equipment and with one gravel ballast with a low wooden guard rail along the edge of the paved roadway to guide the traffic and to protect the edge of the pavement. At all the street intersections the railway strip will be planked.

Portage Was Held Up.
Alderman Garlick called attention to the fact that the Ministry of the Interior had been unable to start paving for weeks past.

It was agreed that this was the case and if it were so the commissioners should have the license to export as is deemed wise in the interest of the Canadian.

STRATHCONA NEWS

SUDDEN DEATH IN STRATHCONA.

The sudden death took place at four o'clock this morning in Strathcona, of Godwin Remond, aged 45 years, who lived in the eastern part of the city. He had been ill for some time, having been suffering from Bright's disease. About four hours before his death he went over to the residence of his father and son returning, dropped down unconscious and died. The funeral takes place next Saturday morning.

A large number arrived in the city yesterday from all parts of the empire to pay their respects. The funeral is being very largely paraded.

John B. Douglas and Son, Douglass & Son, of Strathcona, conducted the services.

It is probable a baseball match between the Leduc players and a team from Strathcona will take place next Saturday.

Prof. Edwards and Prof. McEachern, of the University of Alberta, have been invited to speak.

A runaway, in which considerable damage was done to the rig and hardware, occurred at the bridge over the Bow River, just west of the Canadian Pacific station. The bridge was built in 1907, and it is known that cause took freight and passenger trains off the bridge at night with the damage.

A boy was killed at the bridge on May 26, 1908, when he was caught in the train.

Mr. and Mrs. Jackson, who have been staying in Strathcona, returned yesterday evening to their home, accompanied by their daughter, Mrs. R. D. Douglas.

Miss Mary McIntyre is receiving congratulations on the birth of a daughter to Mr. and Mrs. McIntyre yesterday.

The annual meeting of the assessment commission in Strathcona will be held on Tuesday, June 14, at 10 a.m.

The petition was discussed and a majority of those present voted that the assessment commission be re-elected for another year.

A report from Provincial Engineer on the tender for the supply of timber and stone for the new bridge was read. Of the three tenders received, respectively, the Algonquin Steel Co., the Canadian Bridge Co., the provincial engineer selected to regard with most favor the offer of the Algonquin, of which exclusive of the work of erection, would be \$27,000. The cost of the bridge, including erection, would be \$38,675.

The provincial engineer stated that the bridge would probably be free to do the work of erection in the latter part of the month and that the contractor would be paid the sum of \$15 per cubic yard.

WATER

"Noxall" Filters

Insure Pure, Clear Water

Large selection of Filters adapted for service taps or Pails, Tanks or Water Vessels of any kind.

ROSS BROS., LTD.

CORNER OF JASPER AND FRASER

EIGHTY YEARS OF AGE SUFFERED OVER TWO YEARS

Then Cured by Gin Pills

Remember, right at the start, that Gin Pills are not a "cure-all." If you have Small-Pox, Typhoid Fever or Consumption, don't think about taking Gin Pills because they probably would not do you any special good.

Gin Pills are a scientific preparation which is called "Gin Pills" for short. They are a mixture of various herbs and roots.

The pills have proved to be very effective in curing many diseases.

If you want to send for some, just write to us and we will send you a sample.

We have sold thousands of boxes of Gin Pills but taken near that amount.

I used to take them myself and they were very good.

We have given you a chance to test them, Write N. A. Smith Drug & Chem. Co., 104 Main Street, Lethbridge, Alta., and we will send you a box free.

If you are suffering with your kidneys, heart, lungs, etc., take Gin Pills.

If you are crippled or lame, take Gin Pills.

If you are suffering with rheumatism, take Gin Pills.

If you are suffering with consumption, take Gin Pills.

If you are suffering with small pox, typhoid fever, etc., take Gin Pills.

If you are suffering with consumption, take Gin Pills.

If you are suffering with consumption, take Gin Pills.

ASKING AUTHORITY.

Upon taking the direction of a department or government, a minister is required to seek the endorsement of the electors as to his choice. If he is a member of the legislative body, he must seek re-election. If not a member, he must seek the endorsement of Mr. Sifton and his new colleagues are to appear for the approval of the electors before the month is out. The Premier will probably seek nomination in Vermilion, where Mr. A. Campbell has resigned his re-nomination due to his constituents, Mr. Mitchell will run in Medicine Hat, which seat has been left vacant by the retirement of Hon. W. T. Finlay, Mr. Marshall's recent replacement in the legislature during the strike, he has presented in the legislature. Mr. Marshall, who was contained in the department of agriculture, is not required to seek a second nomination from the polls, his appointment having been approved by his constituents last sat. Nominations will be held on June 10th and polling takes place a week later.

It is well that the ministers are appearing for approval by the electors at an early date, as they can't sit in office under altogether unusual circumstances, and circumstances which make it more than usually probable that they would be called to account at the polls.

The when the late premier retired two courses were open to the Lieutenant-Governor. He might act as a minister in the cabinet of the House, or he might select some one outside the House. Some one he had to select, and select at once.

The political situation is such that it cannot go on except upon the advice and responsibility of some one answerable to the elected representatives of the people. Every member of the House and brought on a general election, as might have been done, he must have first selected some one his advanced age, who could be conducted by someone and on some one's request, even during an election contest. It is clear that there is no room in the House for one who commanded a sufficiently large majority to recommend him for selection, nor even to assure that if he were chosen he would be acceptable to the legislature. And it is the legislature as composed at the time the choice was made, that it is to be considered in selecting an minister. The members of the House are the representatives of the people and even though His Honor decided to prorogue the legislature, he still had the right to choose a man who seemed to have the approval of the House then sitting.

As it is, there is no one minister possessing this qualification, his choice was narrowed down to the selection of one man, namely Mr. Sifton, who seemed to him likely to receive the approval of a substantial majority of the members. Faced with this situation His Honor turned to Mr. Sifton to advise him, and to select a man for the management of public business.

The ministers go before the constituents less for the appearance of policy, than for the approval of their selection as ministers. Two of them—the Premier included—being members of the House, it is right and proper that before formulating any policy or doing anything other than immediately necessary in the management of affairs, they should consult the selection of the electors to their understanding the control of public business and the shaping of practical policy. If there is a question by the electors it will then become their duty to devise and propose to the House a policy in conjunction with the Alberta and the West. What is most important, and as with other matters of importance, to take up the direction of public affairs as most selected by the electors, and to do what is best for the public welfare.

But the first duty is to appeal to the electors for approval of their selection. The by-elections therefore must be fought with the same spirit as is acceptable rather than of public policy. It is not a question of what the ministers propose to do, but of whether they should be ministers,

which goes to be given to the manager of public affairs and the direction of public policy is the question first to be disposed of. When that has been settled with the proper care for those who were to consider the circumstances should be done with the question, up to the public mind, as with public questions generally. Up to now, the public has been asked to the House and country for approval. In the by-elections they will be simple and direct, asking the house of ministers of the crown. It is fair and proper that they should ask and receive that the electors will support the cause and act for an behalf of the public.

The bill-posters of Canada, in session at Charlottetown, Ontario, decided to conduct a free poster campaign against tuberculosis. They agreed to contribute \$25,000 towards the expenses of all charges, the paper-makers, ink makers and lithographers to supply the posters. The posters will be widely distributed throughout the country and will forth in telling man the causes of the disease and how to avoid it. Printed on every board will be the slogan "Fight Tuberculosis." The posters should accomplish work in keeping with the spirit which prompted the campaign.

Seretary Fisher proposes that a party of Edmonton business men should take a jaunt around the district, visit the chief mining centers. The trip will be both pleasant and profitable. It is proposed that the country's industrial advancement determines his fortune, hence allowing the wholesaler to renew acquaintance with the local traders and dealers with whom he has dealt since he may become his customers.

The commissioners recommend that the strip between the street car rails be left unpaved. It would certainly look better than in its present condition, which may not be good for a walk for a few years. Most of the truantious Hurons were also absent from the city, however, had not failed of its purpose, for even the terrible Iroquois had no heart for the fight, and the battle was saved. Well may Montreal remember her Leonidas, and well may she remember that he died in the defense of that heroic state in her history. We have been reminded that next year we will make a grand hundredth anniversary of the city's incorporation. Doubtless we will not arrange for a series of events in honor of the occasion. There will be no elaborate as those at Quebec, but along the main streets we will call up the past and we will be sure to remember the debt we owe to those who so well and truly laid the foundation of our nation "in the brave days of old."

AN ENGLISHMAN flew across the channel and without slight difficulty found a copy of England's *Standard* to have a new test. To his somewhat notable accomplishments on land and sea John has added the navigation of the atmosphere.

A forest ranger has been set aside in Alberta equal to two-thirds of the Province of Nova Scotia. Yet it does not infringe on the agricultural area of this Province, being altogether removed from the city's boundaries. The ranger is a somewhat large piece of the earth.

P. Peters says he sees no reason why the bridge matter should not be "closed up" now. If by that he means that he sees no reason why the bridge should not be put up now he is right in his own general view of things.

IN LIGHTER VEIN.

Browning's Magazine—The Pastor is very wrong, indeed, to print my offensive poem.

The Parochial—Then don't take a fee for marrying people, eh?

Mr. Set—Perhaps—Did you see Jenkins—Not in time.

Boston Transfer—Jack (entering office)—George, the girl is coming down all right. I'm seated.

Ton—Where is your umbrella? I am afraid it will rain.

Liquor—Extracted from a young lady's letter to Valentine:

"Last night I lay in a gondola in the dark, last night I lay in a gondola in the dark, last night I lay in a gondola in the dark, and never did I fall in, and never needed any fall before."

Everybody's—The literary border fastened his eyes upon the "Kindly pane the Review of Reviews."

Mr. Quiverful—(smiling)—

"You'll be glad to know it's a boy—Mr. Quiverful (overcome with gladness) I knew it. It's always been an idea of my wife's that two could live as cheaply as one."

Everybody's—The literary border fastened his eyes upon the "Kindly pane the Review of Reviews."

Mr. Quiverful—(smiling)—

"You'll be glad to know it's a boy—Mr. Quiverful (overcome with gladness) I knew it. It's always been an idea of my wife's that two could live as cheaply as one."

ASYLUM BUILDING, PONOKA.

Tenders for Planning, Heating, Ventilation and Other Mechanical Equipment.

Sealed separate tenders, addressed to the State Deputy Minister of Public Works, Edmonton, registered and endorsed tenders for:

(1) Plumbing, Heating, Ventilation and Mechanical Equipment, will be received up to 12 o'clock noon, Thursday, June 30th.

Plans and specifications may be seen and tenders for had at the Engineering Department of the Public Works, Edmonton, or at the Branch Office of the Department of Public Works.

All tenders must be accompanied by accepted cheques payable at par. Payment of the amount tendered to the tender, as a guarantee that should a contract be entered into, he will be required to execute a contract within three days after acceptance.

The tenderer must furnish a marked cheque or guarantee bond of a sum equivalent to the amount tendered for a period of one year, to be returned to the tenderer when the contract is executed.

The tenderer must be prepared to reject any or all bids or waive any defects.

JOHN STOCKS,

Minister of Public Works,
dated at Edmonton this 29th day of
May, 1910.

address must give old as well as new
addresses.

C. F. HAYES,
Business Manager.

which goes to be given to the manager of public affairs and the direction of public policy is the question first to be disposed of. When that has been settled with the proper care for those who were to consider the circumstances should be done with the question, up to the public mind, as with public questions generally.

Up to now, the public has been asked to the House and country for approval. In the by-elections they will be simple and direct, asking the house of ministers of the crown. It is fair and proper that they should ask and receive that the electors will support the cause and act for an behalf of the public.

In the by-elections they will be simple and direct, asking the house of ministers of the crown. It is fair and proper that they should ask and receive that the electors will support the cause and act for an behalf of the public.

ivid postmen who make a home come down the road loaded with hand and war paint. A hasty summons and warning may be enough to stop them. Those who prefer to be settled with the proper care for those who were to consider the circumstances should be done with the question, up to the public mind, as with public questions generally.
